## COMPATIBILITY

After Effects versions :

CS6 (due to After Effects limitations arrow navigation does not work in this version, please use TAB instead)

CC (TAB navigation does not work in this version, please use arrows instead)

CC 2014

CC 2015

CC 2015.3

CC 2017

CC 2018

## HOW TO INSTALL

1.- Put the file “00 Quick Menu” into the After Effects Scripts folder .

***Note : Please make sure not to put it into the ScriptUI Panels folder, or any subfolder that resides in the Scripts folder. It must be placed directly into the After Effects’ Scripts folder itself.***

Example paths:

***NOTE : The X letters are a placeholder for your After Effects version***

**On Mac :** /Applications/Adobe After Effects XX/Scripts

**On Windows :** C:\Program Files\Adobe\Adobe After Effects XX\Support Files\Scripts

2.- Launch After Effects

3.- Go to **File -> Scripts -> 00 Quick Menu.jsxbin**. After you assign a shortcut to the script you can simply run it using the shortcut. Please read the **SHORTCUT ASSIGNMENT** section in the User Guide.
