

## AutoMatte Installation instructions.

AutoMatte is a script with an interface. To install the script, copy it to the ScriptUI Panels folder, which is inside the “Scripts” folder.

There is a separate scripts folder for each version of After Effects installed on your machine.

On a Mac, the “scripts” folder is inside the main After Effects folder, which is in the “Applications” folder.

On a Windows machines, the After Effects folder is in ProgramFiles/Adobe/Adobe After Effects/SupportFiles/ folder.

### ***From the Adobe website:***

When After Effects starts, it loads scripts from the Scripts folder. By default, the Scripts folder is in the following locations for After Effects:

- (Windows) Program Files\Adobe\Adobe After Effects<version>\Support Files
- (Mac OS) Applications/Adobe After Effects <version>
